ROCK PLANTS

♦ ♦ ♦ of the ♦ ♦ ♦
Rarer Kinds

*No attempt is made at descriptions.
Cultural directions furnished
with each plant.*

SILVERMINE NURSERIES

Silvermine Avenue

NORWALK, CONNECTICUT

Telephone: Norwalk 2481-J

Kindly Read Before Ordering

Cash with order.

Early ordering is urgently advised.

Owing to cost of labor no order for less than \$2.00 can be filled.

Shipments travel at purchaser's risk and cost.

Correspondence as to the description of the plants and their cultural needs solicited.

Many more plants are grown than here listed, but quantities are so limited that their inclusion seems ill-advised.

Any offers of plants or seed of the rarer alpine earnestly solicited.

The majority of these plants have been identified by botanical authorities, the utmost care is taken to supply stock true to name, and any patent error in this regard is always satisfactorily adjusted, but in accordance with the custom of the trade no guarantee is given.

SILVERMINE NURSERIES.

♦ ROCK PLANTS ♦

NATIVES

ALPINES

(from seed and exchange)

ACHILLEA SERBICA.
